

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (original): Filter circuit comprising filter means of the surface acoustic wave (SAW) type for filtering an input signal so as to obtain a filtered signal, and comprising an analog to digital converter, wherein an output of said filter means is directly connected to an input of said analog to digital converter.
2. (original): Filter circuit according to claim 1, wherein an impedance matching circuit is provided to connect said output of said filter means with said input of said analog to digital converter.
3. (currently amended): Filter circuit according to ~~claim 1 or 2~~claim 1, wherein an impedance matching circuit is provided at an input of said filter means.
4. (currently amended): Filter circuit according to ~~one of the claims 1 to 3~~claim 1, wherein no power amplification of said filtered signal is provided between said filtering means and said analog to digital converter.
5. (currently amended): Filter circuit according to ~~one of the preceding claims~~claim 1, wherein said filter means comprise a single ended input and/or a differential output.

PRELIMINARY AMENDMENT  
ATTORNEY DOCKET NO. Q78319

6. (original): Filter circuit according to claim 5, wherein said analog to digital converter comprises a differential input.

7. (currently amended): Radio signal receiver comprising a filter circuit according to ~~one of the preceding claims~~ claim 1.
